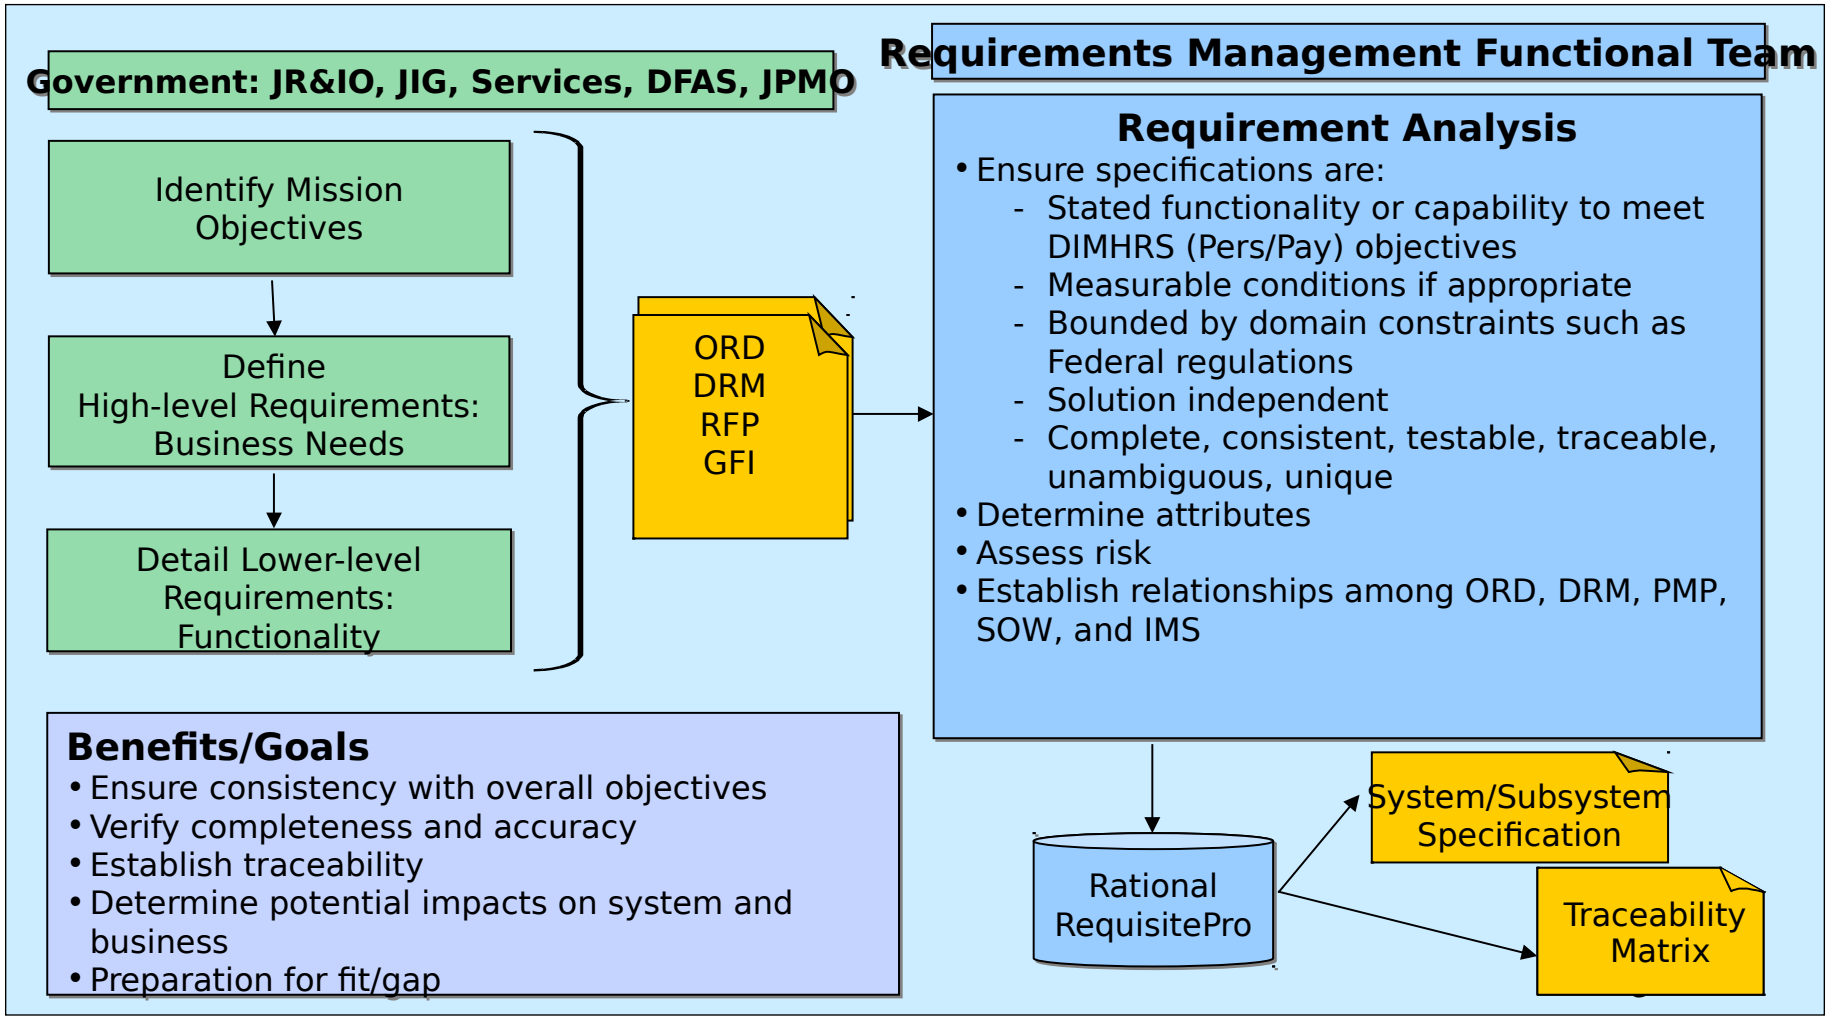
Requirements Functional Team



Government: JR&IO, JIG, Services, DFAS, JPMO
Identify Mission Objectives
Define High-level Requirements: Business Needs
Detail Lower-level Requirements: Functionality
ORD
DRM
RFP
GFI
Requirements Management Functional Team
Requirement Analysis
• Ensure specifications are:
- Stated functionality or capability to meet DIMHRS (Pers/Pay) objectives
- Measurable conditions if appropriate
- Bounded by domain constraints such as Federal regulations
- Solution independent
- Complete, consistent, testable, traceable, unambiguous, unique
• Determine attributes
• Assess risk
• Establish relationships among ORD, DRM, PMP, SOW, and IMS
Benefits/Goals
• Ensure consistency with overall objectives
• Verify completeness and accuracy
• Establish traceability
• Determine potential impacts on system and business
• Preparation for fit/gap
